iRoom's iDock Keycard is the perfect solution whenever your iPad™ needs to be securely stored. For digital signage use in public areas like showrooms or shops, as control panel for boardrooms or as the intelligent concierge in hotels, the possible applications are endless. Thanks to the integrated RFID reader, the iPad™ can be locked in the docking station and can only be released by using token card. Your iPad™ is continuously charged while in the docking station. With iRoom's iDock Keycard your iPad™ is always safely stored and fully charged.
